The Siemens Industry Mall is your gateway to the convenient world of automation and drive technology. Here you will find comprehensive online information and services relating to more than 135,000 products and systems with more than 30 million variants.

Regardless of the stage you have reached in your procurement process:

Siemens offers you a fitting solution. From the selection of products, through the ordering and tracking process, to services and training, the Industry Mall facilitates the complete processing of your purchase. Directly and at any time or location.

**Note:**

To get the best from the Industry Mall your browser should be at least Microsoft Internet Explorer 7 or Mozilla Firefox 4. We recommend that you always use the latest version of the above browsers

Whether you are buying contactors, programmable logic controllers, software or motors – with just a few clicks you can easily use any of the following options via the innovative user interface:

- Detailed information with product data, diagrams, certificates and dimension drawings
- Simple system configuration
- Checking your individual customer prices
- Availability check
- Online ordering option
- Order tracking/overview
- Quick access to suitable training offers and services

The Siemens Industry Mall structures your individual processes transparently, efficiently and cost-effectively. This makes e-business easier than ever before!

But see for yourself. Our guide will explain the key functions to you on the following pages.

Even if you do not log in, some functions of the Industry Mall are available to you in the guest catalog, such as information on product details or product configuration. To get the full benefit of the Industry Mall, however, registration is necessary – free of charge, of course.

Simply click on "Register" and you will be guided through the registration process in a few steps.

As soon as you have received confirmation of your approval you can select the menu option "Login" to log in to the Industry Mall using the user data (login and password) assigned during registration.

## First Login

< Back Next >

Registration in the Industry Mall takes place in four steps. First you receive the registration instructions on the "Welcome" screen. You can then select a user name and password. Please observe the password criteria that are displayed here.

Once you have entered all the required data, the last step just involves accepting the general terms and conditions of use and then you can submit your registration application by clicking "Finish".

Note: Treat your access data with maximum confidentiality. Anyone with access to your data can log in to the Industry Mall and, for example, view your conditions or place an order in your name.

### Current User Tips

#### What's new?

- The process time at the **technical selection assistant** for the product search in the catalogue was reduced considerable.
- The **contact person search** was improved. At a click on contact the responsible persons for the product group which you have selected in the catalogue are shown to you under the register tab *product*.
- You can vote whether the e-mails for the **order status** should be contained all positions or only the positions which have changed the order status. You find the settings in your *user data* under the register tap *user profile*.
- The administration of the **delivery addresses** was simplified...

Once you are successfully logged in, you have unrestricted access to product, price and availability information.

Via the configurator overview page you can access a listing of all product configurators available in the Industry Mall. These helps you to select your systems and products and customize them individually.

Regional information keeps you updated about changes or new features in the Industry Mall.

Current news of the Siemens Industry Sectors.

The centrally located menu options lead you quickly to the respective functions in the Industry Mall. And remember, whatever page you are on the central menu options are always located in exactly the same place.

# Product Catalog

● Navigate through the product tree to find the product category you are looking for.

Expand the main product categories or directly open a product category.

● The "breadcrumb" menu bar (directly beneath the main menu bar) shows you how you reached the currently displayed product information and enables you to retrace your steps if so required.

● Find detailed product information, ordering data, accessories and configurators.

● Wherever you are: access the Industry Mall catalog via the catalog menu.

● The Linkbox on the right offers you to get additional product information, support or contact persons. More details are available on page 11 "Linkbox".

## Product Search

The screenshot shows the Siemens Industry Mall website interface. The main navigation bar includes 'Home', 'Language', 'Contact', 'Help', 'Site Explorer', and a search field containing 'Simatic'. The breadcrumb trail is '> Home > Catalog > CPU 317F-2 DP > 6ES7317-6FF04-0AB0'. The product page for '6ES7317-6FF04-0AB0' is displayed, featuring a product image, a detailed description, and pricing information: 'List Price 3.469,00 EUR' and 'Customer Price 3.469,00 EUR'. A search dropdown menu is open, showing suggestions like 'Simatic net', 'Simatic PDM', and 'Simatic S7-1200'. The search history section shows previous queries: 'Simatic', 'Controller', '6ed1052-1cc01-0ba6', '6ES7317-6FF04-0AB0', and 'test'.

● A further function offered by the product selector is the opening up of the search field in the main navigation. You can enter a part number, the stem of a part number (e.g. 6ES7), product description (e.g. SIMATIC) or your customer article number.

● When entering your search criteria possible suggestions and support will be offered based on the desired product.

● Your search history is saved based on your last queries.

The CAX Data – online generator offers you different CAX Data easy and fast. Available CAX Data are e.g. product master data, 2-D scale drawings, 3-D models, connection diagrams, data sheets, certificates, product pictures...

This function is available in the product catalog, search and in the cart. After you have selected your products click in the menu "More..." the option "CAX Data" and you will be guided through the process of selecting the desired information.

The result of the data generator is a zip file that can be downloaded.

# Configurators

After opening a configurator, you enter the various key data. You can then select systems and products on a step-by-step basis and adapt them to your individual solution.

Once all key data have been specified, the appropriate product is displayed with the relevant order numbers. Special feature of some configurators: a wiring diagram that shows you how the systems should ideally be connected.

Under "Options & Commands" you can save and load configurations or reset them to the original status.

Under the menu option "Cart Management" you will find the function "Save list as template." This allows you to save carts for repeat orders and reactivate them at any time. Using this function you can also set up additional carts and manage existing carts (detailed information can be found on Page 17 "Cart Management").

In addition to the current cart information – such as total price and weight of cart – you are informed about the validity of the products in the cart.

# Cart Management

<input type="checkbox"/>	Cart Name	Created By	Forwarded to
<input type="checkbox"/>	Projekt Tower	Mueller, Max	Miller, John (27.07.2011)
<input type="checkbox"/>	Standard Order	Mueller, Max	
<input type="checkbox"/>	Template 1	Mueller, Max	
<input type="checkbox"/>	Template 2	Mueller, Max	

The cart management offers you an overview of the carts that you have been assigned to or created yourself. You can also create new carts, save existing carts or even create a folder structure, under which individual carts can be sorted.

**Note:**

The carts are stored on an Industry Mall Server and are available online at any time.

If you wish to forward the carts, which you have created, to other Industry Mall users within your company, this can be done very easily by using the "Forward" function. Your colleagues will be informed by e-mail when they receive a new cart.

Choose "Show Details" and add individual products in an easy and fast way from the stored cart to your active cart.

## Customizing the Cart

Max Mueller (Test)

>Logout

SIEMENS

Industry Mall

Home > Language

When an article is added to the cart, an automatic check will inform you whether there is a newer version of this product or if the product requires further configuration.

By clicking on the article number of the new product, you can obtain all details on the later version and then decide which product is the right one for you.

If you do require the older version, you can of course order this as before.

# Availability Check

The screenshot shows the Siemens Industry Mall cart interface. At the top, it says 'SIEMENS Industry Mall - Cart' and 'Max Muster (Musterfirma)'. Below the navigation bar, there's a 'Cart: ()' section with a progress indicator: 1. Item list, 2. Shopping data, 3. Place order, 4. Order acknowledgment. The main table lists items with columns for No., Article number, Quantity, Description, Availability, Price, Price Unit, HQ price group, Discount, and Price p. pos. Item 1 is '6AV7861-1AA00-1AA0' with a quantity of 33 and a price of 1,080.00 EUR. Its availability is shown as '5 pcs.' with a yellow warning triangle icon. Item 2 is '6ES7408-1TA00-6AA0' with a quantity of 1 and a price of 223.40 EUR. Its availability is shown as '31' with a green checkmark icon. A dialog box titled 'Delivery Information' is open over item 2, providing options to change the delivery date. The dialog text reads: 'This product is currently not available on your requested delivery date. Please select one of the following options: Change the requested delivery date to 04.04.14. This is the date all positions are available. Change the requested delivery date for this position to 04.04.14. This will switch to requested delivery date on line item level. Change the requested delivery date separately for every single line item to the earliest possible (non express) delivery date. Notice: This position is available on 04.04.14. Keep the original requested delivery date and this product will be delivered as soon as it becomes available.' The dialog has 'Next' and 'Cancel' buttons. On the right side of the cart, there's a 'Proceed to checkout >' button, an 'Add item(s)' section with 'Copy & Paste', 'Enter', and 'Upload File' buttons, and a summary section showing 'Total Price 35.863,40 EUR' and 'Total weight (kg) \*\* 99,306 kg'.

Here you can check which articles in your cart are available. The result is displayed in the "Availability" column.

If you move the cursor onto the corresponding symbol, a detailed description of the delivery status appears.

Delivery Address: Musterfirma, Teststrasse 11, 90471 Nürnberg, Germany

Requ. delivery date: 11.03.14

Currency: EUR

**Total Price: 35.640,00 EUR**  
plus the regulatory VAT, Freight and Packaging

**Total weight (kg): \*\* 99,000 kg**

Line Items (Invalid Items, Items with hint): 1 (0, 0)

\*\* not including line items with no weight information

Types of addresses:

- Company address
- Default delivery address
- Current active delivery address

You can administrate your delivery addresses in the cart or in the company administration in the section "Addresses." Set a delivery address to your shopping cart or create a new one.

Delivery addresses are maintained for the whole company. Thus delivery address updates will be published in all shopping carts.

# Delivery Data

The screenshot shows the Siemens Industry Mall checkout page. At the top, the Siemens logo and 'Industry Mall' are visible. The user is logged in as 'Max Mueller (Test)'. A progress bar indicates the current step is 'Shopping data'. The main section is titled 'Checkout & Options' and contains several form fields: 'Currency' (EUR), 'Delivery Address' (Test, Firma GmbH, Mühlweg 3, 12345 Testhausen, Germany), 'Final Customer Name', 'Final Customer Country', 'Customer Order Number' (Projekt Tower), and 'Additional Header Texts'. A 'Header F-Text' box is also present. On the right, a summary box shows 'Total Price 34.908,00 EUR' and 'Total weight (kg) 99,473 kg'. Navigation buttons like '< Back to Item List' and 'Next >' are at the bottom right.

● The "Delivery Data" overview is where you must add the key data for your order – such as delivery address and your customer order number.

● In this text box you can make comments that are to appear later on the order confirmation, delivery note and invoice.

In this overview you should check the key ordering data carefully, e.g.:

- Delivery address
- Order number
- Required date of delivery
- Articles and quantity

Before submitting the order you must accept the terms and conditions of sales and delivery terms.

Here you can decide whether you want to delete the shopping cart after placing the order or use it again for further orders.

If you require a hard copy of the order for your internal documentation, you can print it out by clicking here.

● The order inquiry shows your recent orders. Orders in this view can be sorted by „Order Date“, „Status“, „Total Price“, „Order Origin“, „Account #“ and „Sales Order“

● The extended search function can be used to filter the inquiry view.

● A click on the customer order # or the sales order # opens a more detailed view of the selected order.

In the dropdown menu you can choose between three status categories (Open, Cancelled and ,Completed). The following order status are displayed within Order Inquiry:

- Order placed (Open)
- Order at work (Open)
- Completed
- Ordered (Open)
- Order confirmed (Open)
- Cancelled

● By clicking on the link of the delivery note, you can open, save or print out the delivery note of the corresponding item.

● A click on "Carrier" takes you directly to the carrier company where you can easily track the precise delivery status.

## Order Status Mails

### Order Handling

#### Subscribe to order status mails

Receive e-mails which contain information about inserted or updated confirmed shipping dates, article numbers, confirmed quantities and cancelled line items

#### Subscribe to delivery confirmation mails

Receive e-mails which contain information about articles that were handed over to the carrier

#### Aggregate order status and delivery confirmation mails.

Only once a day a mail per order will be send. Appr. at 03.00 CET.

#### Send only changed line item information in order status mails

Order status mails and delivery confirmation mails do not contain all line items but only the ones which were changed since the last e-mail.

#### Investigating customer numbers for order overview

The user can see the orders of the following customer numbers:

Order data	
Mail ID	0000000000
Customer number	2280531
Company	TRUMPF
Customer Order Number	0000000000
Order date	2010.11.11
Currency	EUR
Customer	TRUMPF AG
Telephone	+49 (0) 91 924-202-0
Fax	-
Delivery to	TRUMPF AG 0000000000
Carrier	-

Order positions				
LineNumber	CustomerArticleNo	Quantity	ProductID	Descriptio
1	2280531	1 Piece	8GK1102-4KK22	ALPHA 40
2	9wspace	5 Piece	5SB111	DIAZED F
Total price ***				

● The order update e-mail keeps you informed, when supplier changed important order data like:

- Confirmed date
- Quantity
- Or cancellation of items

Note :

This is only for information and does not replace an official order confirmation.

# Master Data Request

Would you like to inquire quickly and easily about the product master data of a specific range of products? That is what the master data request offers you. You can select and download the output formats from various standards.

Furthermore, you can download the discount file here for the Siemens Catalog CA01 (offline on DVD).

Hint: In CA01, you can automatically update the conditions with ones from the Industry Mall.

Together with the conditions, the contact persons and delivery addresses are loaded from the Mall.

# User Administration

The screenshot shows the Siemens Industry Mall Administration interface. At the top, the Siemens logo is on the left, and the user 'Max Mueller (Test)' is logged in on the right. The main navigation bar includes 'Home', 'Language', 'Contact', 'Help', 'Site Explorer', and 'Product Search'. Below this, there are links for 'Catalog', 'Cart', 'Service', 'Inquiry', and 'Administration'. The 'Administration' section is expanded to show 'Companies' and 'Users'. The 'Users Overview' section displays a table with columns for 'State', 'Name', 'Company', 'Role', 'Allowed To Order', and 'Show Customer Prices'. A table entry for 'John Miller' is visible. The 'Search Conditions' panel on the right has input fields for 'First Name', 'Surname' (filled with 'Miller'), 'E-mail', and 'Login', with a 'Search' button. The 'User Details' section for 'John Miller' is also visible, with tabs for 'User Details' and 'Rights Details', and expandable sections for 'Access to the System', 'Profile Data/Address', and 'Person'.

● Using the search conditions you can search for and display specific individual users within your company.

● In the user administration the main user in your company has the opportunity to add or delete other users and to modify user data.

As the main user, you can assign your customer-specific article numbers to our products enabling you to search for and order products in the Industry Mall using your own article numbers. You will find this function under the menu option "Administration / Companies / Company Details / Customer Article Numbers".

In addition, you can add your own product descriptions, e.g. "Controller for Machine Type A."

For bulk modifications we recommend using the "Upload List" function: In just one operation you can copy a complete list of your customer article numbers into the Mall

## Storing Delivery Addresses

With "Open Catalog Interface" (OCI) we offer you an open and standardized catalog data interface for the exchange of catalog data records between purchasing systems and any other catalogs (analogous to PunchOut).

This enables you to access current catalog data from the Industry Mall, fill the cart there and then transfer this back to your own procurement system. You can also contact us directly to obtain your own individual solution.

When will you start using the Siemens Industry Mall?
