I. GENERAL CONDITIONS

- The scope, quality and all terms and conditions for the provision of any parts, equipment, hardware, software, technology, documentation, works or services (collectively "**Work(s)**" or "**the Work**") shall be exclusively defined on the one hand by as the case may be either the order confirmation of the provider of the Work ("**Supplier**") or the contract document signed by **Customer** and Supplier ("**Parties**" or any one of them as the "**Party**") and on the other hand the written provisions of these International Conditions for Supplies and Services ("**Contract**"). Terms and conditions of Customer including general terms and conditions shall apply only where expressly accepted in writing by the Supplier. The Contract shall be deemed to have been concluded upon receipt of Supplier's written acknowledgement stating its acceptance of Customer's order on the basis solely of such terms.
- Customer shall have only the non-exclusive right to use software in machine-readable object code form in connection with the Work and as specified in the operation documentation, if any. Customer may transfer its rights in the software only in connection with the sale or other transfer of the Work to a third party. Customer is only allowed to make two back-up copies of such software with use thereof solely limited to the rights set forth above.
- Unless otherwise agreed in writing, in the event the Contract is a pure purchase contract, deliveries shall be made "ex works" (Incoterms 2010).
- Supplier may provide partial deliveries of Work, unless the acceptance of partial Work cannot be reasonably expected from Customer taking into consideration the interests of both Parties.
- Supplier shall not be obliged to install, repair or otherwise use third party parts, except if explicitly agreed in the Contract. Third party parts shall mean any parts, components, equipment or materials provided by Customer or that exist in Customer's plant and which were neither manufactured nor supplied by Supplier, or which were originally supplied by Supplier but subsequently repaired, serviced, overhauled or otherwise altered by a person other than Supplier. Day-to-day maintenance with regard to a part (originally supplied by the Supplier) by a third party does not qualify the respective part as third party part.

- Supplier's obligations under the Contract shall be subject to the proviso that such fulfillment is not prevented by any impediments arising out of national or international foreign trade or customs requirements or any embargoes or other sanctions.
- Supplier shall comply with all health and safety laws and regulations in force at the work area, which in particular includes without limitation the ambient air of such area on any site where Work needs to be carried out (hereinafter "**Work Area**") as well as with the health and safety laws, regulations and requirements valid in the European Union. Customer shall provide to Supplier Work Area at the agreed point in time and shall ensure that the Site complies at such time with all aforementioned laws, regulations and requirements, and shall not during the performance of this Contract cause any risks not in compliance with the aforementioned laws, regulations and requirements.
- Customer shall inform Supplier prior to the execution of any Work about possible health or safety risks which may arise out of Customer's plant and equipment or may exist on Customer's site including, but not limited to hazardous materials which may exist in addition to any hazardous materials already specifically identified in the Contract to exist or the existence of which is obvious for the Supplier. The Supplier shall provide reasonable support to the Customer in the assessment of the existence of any such health or safety risks and what protective and preventive measures should be taken.
- Supplier's Work does not comprise the use of special protective and preventive measures against any health or safety risks for Supplier's and its subcontractors' personnel in or arising out of Customer's plant or equipment or existing on Customer's site to the extent such measures go beyond what is normal and usual for the type of work to be performed by Supplier. However, Supplier shall be responsible for the clearance of any health or safety risk in the Work Area to the extent this has been created due to his fault. In the given case of health or safety risks for which Supplier is not responsible as defined in the two preceding sentences above (including but not limited to the exposure to artificial mineral fibers or asbestos concentrations in the work area or an area used for access to the work area are greater than 1,000 particles / m³ of ambient air) ("**Customer Health or Safety Risks**") the Parties shall reach agreement in good faith how to proceed. However, Supplier shall not be obligated to carry out any Work at all if the asbestos concentration exceeds 100,000 particles / m³ ambient air.
- In case of substantiated doubt regarding the existence of Customer Health or Safety Risks the Customer shall provide proof of their non-existence by means of an expertise of an independent, internationally operating, specialized and qualified company or institute agreed upon by the Parties. The expertise shall take into account all circumstances including but not limited to the environment of the Site. Nothing in this Contract shall in any way be construed to limit Supplier, in its sole discretion, from taking any samples or measurements of such areas, though Supplier shall have no obligation to do so.
- In the event there are Customer Health or Safety Risks or there exists any substantiated doubt that the same exist or may be created by or during the Work, or the Customer has failed to comply with any of its obligations set out in the preceding paragraphs, then, without limiting its other rights and remedies, Supplier shall be entitled to suspend

its Work until (a) the respective Customer Health or Safety Risk has been permanently eliminated, or (b) the addressed (substantiated) doubt has been proven to be unsubstantiated, or (c) agreed protective and preventive measures have been taken.

12. Customer shall dispose of all waste created on its site in a timely manner and in accordance with all applicable laws. The Customer shall also be responsible for the timely and lawful disposal of its equipment or parts thereof which are or become hazardous waste. Notwithstanding the foregoing, in the event the Supplier has negligently created such waste on Customer's site the Supplier shall be responsible to reimburse Customer for its disposal to the extent Customer incurs substantial costs. In all cases Customer shall be responsible for decontamination and/or disposal of any radioactive materials or waste.
13. Customer shall indemnify and hold Supplier harmless from and against any claims, losses or damages any employee of Supplier or its subcontractors or any other third party may demand from Supplier and arising out of the realization of any Customer Health or Safety Risks or the disposal of any waste Customer is responsible for.

II. PRICES AND TERMS OF PAYMENT

1. Prices shall be "ex works" (Incoterms 2010) and shall exclude packing and any indirect tax, including but not limited to property, license, sales, use, value added or similar taxes or duties applicable to the transaction or related work. Customer agrees to pay or reimburse Supplier all such taxes, levied on Supplier or its subcontractors.
2. If Supplier has undertaken the assembly or installation, Customer shall bear all required incidental costs including but not limited to travel expenses and daily allowances in addition to the agreed price, unless otherwise agreed in writing.
3. Without prejudice to Clause II paragraph 1, Customer shall bear all taxes, fees, duties, social security contributions and other charges which are levied on Supplier or its employees including Supplier's subcontractors and their personnel) in connection with the performance of the Contract in the country of destination of the Work other than the country where Supplier's factory or workshop is located in which the major part of the Work is performed.
4. Payments shall be made to the bank account or payment office notified by Supplier without any deduction, including but not limited to deductions of withholding tax unless Customer is required to make a payment subject to such deduction. In this case the sum payable by Customer in respect of which such deduction is required to be made, shall be increased to the extent necessary to ensure that, after the making of the deduction, Supplier receives and retains (free from any liability for such deduction) a net sum equal to the amount it would have received had no such deduction been made. Customer shall hand over tax receipts of withholding tax paid to Supplier within four weeks after payment of an invoice, which was subject to withholding tax.
5. If Supplier does not receive payment from Customer when such payment has become due and payable Supplier shall be entitled to charge interest at the annual rate of 8 (eight) percentage points above the Base Lending Rate of the European Central Bank.
6. If Customer suspends Work for reasons Supplier is not responsible for, Supplier may stop work until the failure is remedied or the suspension lifted, as appropriate, and shall be paid for all Work performed until receipt of the suspension notice and for all additional cost not compensated by this payment, but incurred in connection with the performance and/or suspension of the Contract including but not limited to payments due to subcontractors and sub-suppliers, cost of waiting time, demobilization and remobilization, costs and protection of the existing Work. In addition, Customer shall grant an adequate extension of time (including the time necessary to restart the works after suspension if lifted) to Supplier.
7. Customer may set off only those claims made under this Contract that are undisputed or have been finally determined under Clause XVI.

III. SECURITY INTEREST

1. Title to the Work shall remain with Supplier until each and every claim against Customer to which Supplier is entitled under this business relationship has been duly satisfied. If Supplier does not retain title to the Work or any portion thereof, for any reasons, e.g. the applicable law, Customer grants Supplier a security interest in the Work sold to secure the payment of the price by Customer as well as performance of all other obligations of Customer arising under this Contract. Customer herewith authorises Supplier to enter or notify the retention of title or, as the case may be, the security interest with public registers, books or similar records, all in accordance with relevant laws, and shall fulfil all required formalities, at Customer's costs and expense.
2. For the duration of the retention of title or, as the case may be, the existence of a security interest in the Work or any portion thereof, Customer shall be prohibited from giving the Work in pledge or as security, and resale shall be permissible only in the ordinary course of business and subject to the condition that Customer immediately receives payment from its customer or retains title or, as the case may be, security interest for as long as all payment claims of Customer against its customers or clients have not been fulfilled.
3. In case of possession through legal right or process of the Work or similar acts or interventions by third parties which may result in Supplier losing title to or a security interest in the Work, Customer shall inform Supplier immediately thereof in writing.

IV. TIME FOR DELIVERY AND DELAY

1. Performance of the stipulated time for delivery is subject to the timely receipt by Supplier of all required documentation, necessary permits, releases, and plans to be provided by Customer, and timely fulfilment of all obligations of the Customer herein. To the extent said conditions are not fulfilled on time, the time for delivery and/or completion shall be extended accordingly.
2. If non-performance of any obligation of Supplier is due to "**Force Majeure**", defined as impediments or other circumstances beyond Supplier's reasonable control, then Supplier's performance is excused and the time for delivery and/or completion is extended for the duration of the Force Majeure event and its consequences. Force Majeure events include, but are not limited to: natural disasters or catastrophic events such as epidemics, nuclear accidents, fire, flood, typhoons or earthquakes; acts or omissions by civil or military government authorities, such as foreign currency restrictions, revocation or suspension of export or import licenses, governmental priority orders, allocations or restrictions upon the use of materials or manpower, refusal of visas or working permits despite an application in due form; war declared or not, riots, ionizing radiation or contamination by radio-activity, piracy, sabotage or revolutions, terrorist acts and the threat thereof; strikes or lockouts, shortages of means of transport like cars,

trains, ships, planes etc., fuel or energy shortages, delay or accident in shipping or transportation or (partial) destruction of manufacturing facilities after submission of the offer by Supplier, or as the case may be signing of the Contract by Supplier and which manufacturing facilities were intended to be used for the performance of the Work by the Supplier.

3. If Supplier is solely responsible for a delay in delivery (in case this Contract is a pure purchasing contract) or, as the case may be, completion of the Work (in case this Contract is not a pure purchasing contract), and Customer can prove that it suffered a loss from such delay, Customer may claim liquidated damages of zero point five per cent (0.5 %) of the price of that part of the Work, which, because of the delay, could not be put to the intended use for every completed week of delay.
4. Subject to Clause XV paragraph 2 payment of the liquidated damages pursuant to Clause IV paragraph 3 shall be the exclusive remedy of Customer for delay and under no circumstances shall the total aggregate liability of Supplier for such delay exceed the lesser of five per cent (5 %) of the contract price of that Work, which, because of the delay, could not be put to the intended use, or €100,000 (or if the Contract Price is denominated in another currency the corresponding sum in this currency as follows from the exchange rate published by the Financial Times, United Kingdom, for the period in which the liquidated damages fall due).
5. If dispatch or delivery is delayed by more than one month after notice was given of the readiness for dispatch by Supplier due to reasons for which Supplier is not responsible, Supplier may charge Customer storage costs for each commenced month thereafter of 0.5 % of the price of the respective Work. If Customer causes a delay to the provision of the Work, Customer shall reimburse Supplier all additional costs and expenses incurred due to such delay.

V. TRANSFER OF RISK

1. If the Works delivered by Supplier are erected by Customer or its subcontractors, and irrespective whether such erection is supervised by Supplier or whether Supplier advises on the erection of the Work, and/or whether the commissioning or performance tests are carried out by Supplier or with its assistance, the risk of accidental loss and damage to the Works shall transfer in accordance with the applicable law and at the latest upon delivery of the Work or any portion thereof under Clause VII or their acceptance pursuant to Clause VIII.
2. If the performance of the Work including but not limited to the dispatch, the delivery, the beginning or completion of assembly or erection, the commissioning, the trial run or the taking over by Customer is delayed for reasons within Customer's responsibility, or if Customer has failed for other reasons to accept delivery, the risk of accidental loss or damage to the Work shall transfer to Customer on the date when it would have passed but for such reasons or failure of Customer.

VI. WORK ON SITE

Unless otherwise agreed in writing, Work outside Supplier's own workshop or factory including but not limited to assembly, installation, commissioning and testing of the Work or any portion thereof shall be subject to the following provisions:

1. Customer shall provide at its own expense and in a timely manner:
 - a) Unrestricted access to the Work Area, including but not limited to entry permits and security passes;

- b) Comprehensive assistance with regard to obtaining import, export and customs clearance for personal belongings and goods of Supplier's and its subcontractors' personnel and of the equipment, tools and goods required for the Work;

- i) The Work Area exempt from any health or safety risks going beyond what is normal and usual for the type of work to be performed by Supplier; and
- j) All health and safety measures in the event the same become necessary to protect Supplier's and its subcontractors' personnel.

2. Before the start of Work, Customer shall
 - a) Make available, at its own cost and expense, all necessary information concerning the location of concealed electric power, gas and water lines or of similar installations as well as all required data concerning static and sub-surface conditions of the site, and
 - b) Provide all necessary materials and equipment to start work at the site and carry out all preparations to such a point that the assembly or installation can be started as agreed and carried out without interruption. VIII. ACCEPTANCE

1. Customer shall accept Work including engineering, factory tests, erection, assembly, commissioning and testing separately upon their respective completion.
2. If the Work comprises the delivery of hardware, its complete assembly and erection as well as the commissioning of the Works outside Supplier's own workshop or factory the Works or portion thereof shall not be deemed to be completed until the commissioned Work has been accepted by Customer.
3. Notwithstanding Clauses VIII paragraphs 1 and 2 and Clause IX, acceptance of Work comprising scheduled outage services or maintenance services, irrespective of whether or not such services comprise the installation or provision of hardware or software, shall be deemed to be given by Customer after performance of the respective services.
4. If, after completion, Supplier requests acceptance of the Work or a part of it, Customer shall provide written acceptance within two weeks of request. However, the Work is deemed to be accepted if Customer refuses acceptance, but does not give written reasons therefore within two weeks or does not respond within two weeks of request. The Customer's reasons shall at least detail the Work Customer regards as unfinished or substantially defective. The Work or any part of it is also deemed to be accepted if put to use by Customer.
5. Customer may not refuse acceptance in case of a) defects which only insignificantly impair the use of the respective Work, b) minor deviations of the Work from the specification of the Work, c) part identification numbers of the Work or parts thereof differ from those of the parts originally installed or ordered due to technical developments, d) defective installation or erection not carried out by Supplier, or e) inappropriate foundation or particular external influences not explicitly assumed to have an impact on the Work.
6. As long as a defect of the Work is capable to be remedied and Supplier has not definitely refused to undertake the required remedial efforts, Customer shall not be entitled to definitely refuse acceptance of the Work.
7. If Work or any portion thereof is ready for delivery or performance and cannot be delivered or performed for reasons beyond Supplier's control, acceptance shall be deemed to have taken place upon Supplier's notification to Customer of readiness for delivery or performance.
8. If performance tests, functional tests, and/or trial runs are to be done by Supplier after the Work has been accepted under Clauses VII and/or VIII paragraphs 3 and 7, any such acceptance shall not be affected by any failure to pass said tests.
9. All costs and expenses of Customer or any third party for to inspections, tests, approvals, and acceptance procedures shall be borne by Customer.

IX. DEFECTS LIABILITY

Supplier shall be liable to Customer for defects including any non-conformity with express warranties or the failure to meet performance guarantees or assurances as follows:

 - b) Customer notified Supplier during the defects liability period in writing of the defect without undue delay after Customer's discovery of the respective defect or after Customer should have discovered the same if Customer had exercised due care and in either case if Customer did allow Supplier a reasonable opportunity to investigate if requested

 - c) if Customer prevents Supplier from remedying a defect,
 - d) if Customer has not given Supplier written notification that an attempt to settle a dispute has failed pursuant to Clause XVI paragraph 1 within 2 (two) months after Supplier has refused to remedy the defect, or

4. Notwithstanding Clause IX paragraph 2, defect liability claims with regard to software are excluded
 - a) in case of insignificant deviation of the software from the agreed characteristics,
 - b) as long as the defect cannot be reproduced by Customer in the presence of Supplier,
 - c) for errors or restrictions of use originating after the transfer of risk to the Customer, in particular resulting from improper operation, usage or handling,

5. If Supplier carries out remedial Work on a defect Supplier shall be paid for such remedial Work in accordance with any prices agreed with Customer for such type of Work or failing this, its price schedules in effect at the time the Work is carried out, unless Supplier accepts responsibility for said defect or Customer proves that Supplier was responsible for the defect and that the conditions under IX paragraph 2 are fulfilled. The terms in this Contract shall apply to the carrying out of that remedial Work.
6. Supplier shall be given adequate time and opportunity to remedy the defect. For this purpose, Customer shall grant Supplier working access to the non-conforming Work, including disassembly and reassembly, reasonable access to operating and maintenance data, and the control system without cost to Supplier. Clause VI shall apply accordingly.

8. If software is defective and Supplier is (sub-) licensor of this software, Supplier shall only be obliged to notify its licensor of the defect and shall provide Customer with an updated version of the software in which the defect has been remedied when such updated version is made available by Supplier's licensor. If standard software has been modified or software has been individually developed by Supplier, Supplier shall provide Customer with a by-pass or other interim error correcting solution until the provision of an updated version of the software in which the defect is remedied, if such by-pass or interim solution is feasible at reasonable expense and if otherwise Customer's business operations would be stopped or substantially impeded.
9. The defects liability period and the period of limitation for claims of Customer for Intellectual Property infringements shall be 12 months, except for software where the defects liability period shall be 6 months. The defects liability period shall start at the earlier of: a) the date the transfer of risk to Customer occurred, or b) completion of the respective Work, in the event the Work is performed, assembled or erected by Supplier under this Contract outside Supplier's or its subcontractors' own workshop or factory. The defects liability period for a remedied part of the Work shall be 6 months, but expire the latest 6 months after lapse of the defects liability for the original Work provided in the first sentence of this Clause IX paragraph 9 above.

third party in writing that the suspended use is not acknowledgment of an infringement of intellectual property rights.

9. 10. This Clause X sets forth Supplier's entire liability under all legal theories for infringement of third party intellectual property rights. Any further rights and remedies of Customer (including Customer's right to claim damages) shall be excluded.
11. Customer's obligations arising out of this Clause X shall survive the expiration or termination of this Contract.

Payment of liquidated damages pursuant to Clause IV paragraph 3 for late performance with regard to said (part of the) Work shall be taken into consideration in the calculation of that 10 per cent (10 %) cap.

Notwithstanding any other provision in this Contract, Supplier may terminate the Contract when a Force Majeure event has continued for more than 180 days. Any such termination shall be without liability to Supplier.
3. If Supplier exercises the right of termination set forth in Clause XI 2, Supplier shall notify Customer in writing without undue delay after becoming aware of the significance of the event. This notification requirement shall apply even where at first an extension of the time for delivery has been agreed between the Parties.
